

Packing Operations (QCF)

These QCF qualifications will provide recognition of the skills, competence and knowledge of individuals working within a packing environment in industries such as, but not limited to, food and drink, personal care, pharmaceuticals and chemicals.

Document detail:

Level 2 Award in Packing Operations (QCF) - 6 Credits

Level 2 Certificate in Packing Operations (QCF) - 21 Credits

- Automated Packing Pathway
- Hand Packing Pathway
- Pilots and Clinical Trials Pathway

Who are the Qualifications for:

The Level 1 qualification covers working safely and working effectively in a team; along with machine-based, automated packing operations and hand-based, manual packing operations.

The Level 2 qualification covers working safely and working effectively in a team; along with responding to incidents, hazardous conditions and emergencies. It contains three Pathways: Automated Packing; Hand Packing; and Pilots and Clinical Trials. The Automated Packing Pathway covers starting up and running machine-based packing operations to meet packing requirements. The Handing Packing Pathway covers carrying out manual packing operations to meet packing requirements. The Pilots and Clinical Trials pathway covers the specific requirements which relate to packing items for use in a pilot or clinical trial predominantly within, but not limited to, the pharmaceuticals industry.
